## Pigeon Forge Car Show Traffic

We won't sugarcoat this...Pigeon Forge car shows bring lots of cars...therefore lots of traffic. *Lots* of traffic. Locals often refer to it as "gridlock" and visitors who roll into town not knowing a car show was going on end up leaving and saying they will never be back. Simply put, *make sure you know the dates of Pigeon Forge car shows!* We even provide "traffic alerts" on our [Pigeon Forge Calendar of Events](#) to help people plan their visit accordingly. Pigeon Forge rod runs and car shows can be a ton of fun if you just know what to expect and come prepared.

## Spectating

During car shows and rod runs in Pigeon Forge, it's common to see fold-up chairs lined up and down the parkway with people packed shoulder-to-shoulder with coolers, cameras, and friends. While there are official "locations" of the actual "car shows" (where they judge, award prizes, setup vendors, etc) the majority of visitors just sit on the sidewalks, parking lots, and hotel balconies as all of the action takes place up and down the parkway. Numerous cars park in spots lining the parkway making it easy to walk up and down the sidewalks checking out all of the rides and speaking to their owners. Just remember what your mom use to say when you were a child going into a fancy store...look but don't touch!
